

10:00	Welcome		
11:00	Technology Innovation - how it will shape tomorrow.		
BREAK	Drug Delivery	Smart Automation	Collaboration
12:00	Oral & parenteral dosage forms: how mature technologies keep evolving.	Hotspots of modern robotics in laboratory and production.	Working in Consortia – when is it worthwhile, how does it work?
13:00	LUNCH		
14:00	Drug Delivery	Smart Automation	Collaboration
15:00	Solubilization & Bioavailability enhancement: addressing key challenges	Master Class Robotics Assessments: Find your biggest opportunities	Driving Sustainability – how to collaborate?
16:00	New Modalities & Targeted Delivery: prospects for future application?	Modular automation for production and laboratories: what is possible today and new developments.	Proven collaboration models between companies and academia
17:00	BREAK		
	Collaboration – a key aspect when realizing technology innovations / addressing sustainability challenges.
